

Honeywell Power Products

Case Study Submittal Form

Case studies are generally used for job references and public relations purposes. Once a case study is written, the dealer and end user will be provided ample opportunity to review, edit and approve. Submit completed forms to Beth Welch, Public Relations Manager, via email beth.welch@honeywell.com or fax **203-484-1215**.

Project Information

Facility/Project Name

City State

Does this facility have a website? If so, please provide:

Type of project (i.e. school, healthcare, retail):

| | | | |
|-----------------------------|---|---|---|
| Type of construction | <input type="checkbox"/> New Construction | <input type="checkbox"/> Retrofit | <input type="checkbox"/> Addition |
| Type of system installation | <input type="checkbox"/> Video | <input type="checkbox"/> Fire | <input type="checkbox"/> Access Control |
| | <input type="checkbox"/> Intrusion | <input type="checkbox"/> Other (specify): | |

Is the installation complete and proven to work effectively?

If no, please explain:

Please provide specific information on all products used for this installation, including quantities and brands of all security/fire equipment and power supplies, scope of installation, etc.

What interesting details concerning this project or installation can you provide? Were there any issues or hurdles this system installation solved or overcame?

Please provide a contact from the project that we can interview (i.e. security director, maintenance manager):

Photography

Acquiring a variety of photographs related to the case study goes a long way in helping to promote it. Professional photos provided by the end user or simple digital camera photos will both work. All images must be high-resolution (minimum 300 dpi) so be sure your camera's image settings are set to the highest level. Great photo examples would be:

- front of building/complex that includes company sign
- any visually interesting aspects of the building or security/fire system
- installed equipment (cameras, panels, power supplies, peripherals, etc.)
- tech working on open panel
- guard or other individual operating equipment

The more photos, the better! Can you acquire/provide photos to accompany this case study? Yes No
